HANK KATARIA

Waterloo, ON | 416-454-9500 | hank.kataria@gmail.com | LinkedIn | Portfolio

SUMMARY OF QUALIFICATIONS

Business systems analyst (MBA, Finance & Business Analytics) with hands-on experience configuring, testing, and reporting within enterprise financial systems including SAP S4/HANA, Microsoft/NAV Dynamics, and JIRA. Skilled in eliciting and translating business requirements into system configurations, documentation, and process improvements, with a track record of cross-functional collaboration between finance, engineering, and operations teams. Strong financial-analysis foundation — budgeting, forecasting, variance analysis — paired with advanced Excel, SQL, and BI-tool proficiency for building the reports that support data-driven decisions. Detail-oriented, continuous-improvement mindset with a strong customer-service focus.

KEY SKILLS

Financial Systems	Business Analysis	Financial Analysis	Reporting & Data Tools
SAP S4/HANA	Requirements gathering	Financial modelling	Advanced Excel (macros, pivot tables)
Microsoft / NAV Dynamics	Fit/gap analysis	Budgeting & forecasting	SQL
MicroStrategy	System testing & docs	Risk mitigation	Tableau / Power BI
JIRA	Process improvement	Regression / sensitivity analysis	Python (NumPy, Pandas) / R-Studio)

RELEVANT EXPERIENCE

Consumer Insights Intern, *University of California, Riverside* **April 2025 – June 2025**

- Conducted end-to-end consumer research, including survey design, data collection, and analysis, to evaluate customer preferences and behavioral patterns
- Analyzed survey datasets (200+ responses) using statistical methods to identify key factors influencing customer decisions
- Segmented customers based on behavioral and demographic variables, enabling targeted insights for strategic recommendations
- Developed data visualizations and presented insights to stakeholders, improving clarity of insights and supporting decision-making
- Delivered a comprehensive insights report highlighting key opportunities for improving customer engagement and product positioning

Graduate Assistant / Reader, *University of California, Riverside* **Feb 2024 – Jun 2025**

- Developed and maintained clear, user-friendly course documentation, presentations, and online resources in partnership with faculty, supporting consistent delivery across offerings.
- Delivered individualized support to a diverse student population, resolving queries and clarifying complex concepts with a strong client-service focus.

Systems Engineering Analyst, *General Dynamics – Land Systems* **Dec 2021 – Dec 2022**

- Collaborated with finance and engineering stakeholders to translate business requirements into system configurations and cost controls, aligning financial data and reporting with organizational goals.
- Analyzed budget variances and financial data, developing clear reports and recommendations that supported stakeholder decision-making.
- Participated in cross-functional testing and implementation of standardization initiatives between finance, engineering, and supply-chain teams, improving documentation accuracy and streamlining procurement processes.
- Performed root-cause analysis on budget and process issues, contributing to risk-mitigation strategies that minimized project delays and financial impact.
- Communicated financial requirements and process changes to internal and external stakeholders, ensuring accurate, well-documented handoffs.

Engineering Analyst, *Toyota Motor North America* **Mar 2018 – Mar 2019**

- Translated business and operational requirements into an actionable implementation plan for a $37M capital investment project, covering budgeting, scheduling, and equipment commissioning.
- Drove data-informed process improvements — including standardization and consolidation of procedures — that achieved zero equipment downtime, through structured root-cause analysis and testing.
- Partnered with vendors and customers to resolve issues and refine processes, cultivating lasting cross-functional working relationships.

Project Engineer, *Bend-All Automotive Incorporated* **Sep 2015 – Jun 2017**

- Managed project financials, KPIs (cost, schedule, quality), and client relations for multiple high-value automotive programs, including regular reporting to stakeholders.
- Improved financial forecasting and cost control by establishing inventory-management practices and negotiating supplier contracts.
- Led financial and feasibility analysis for new project proposals, evaluating profitability to ensure alignment with business goals — direct experience with fit/gap-style assessment of new initiatives.

EDUCATION
